

# **GSXR1300 HAYABUSA 08 HUGGER**

## **Fitting kit:**

1 x Bracket  
3 x M6 x 16mm button allen bolt  
2 x M6 x 12mm button allen bolt  
5 x M6 plastic washer

## **Fitting instructions:**

Remove the chain guard.

Undo the brake hose retaining clip on the right side of the swing arm brace. The bracket supplied sits on the swing arm brace and is bolted into the brake hose clip hole, with the clip on the outside of the bracket, using the original bolt. (see pic) fully tighten the hose clip bolt.

Feed the hugger over the wheel from the rear.

Loosely fit the chain guard side of the hugger to the original chain guard mounting points using the M6 x 16mm bolts supplied, with plastic washer.

Fit the right side of the hugger to the bracket using the M6 x 12mm bolts with plastic washer.

Check alignment of the hugger over the wheel then fully tighten all fasteners.

**Please note:** check hugger alignment and fasteners periodically.
