Triumph Tiger 800 /Ductail Fitting Instructions

1. Remove the license plate reflector adjuster.

Feed the license plate reflector adjuster through the front of the Ductail. The reflector fits in the recess on the lower edge.

2. On the rear of the Ductail are two adhesive strips. Peel the backing off from the strips and make sure the contact face is clean on the adjuster.

"Fold" the Ductail into place, making sure to align the tape with the contact faces on the reflector adjuster.

3. Press firmly into place once the adhesive strips are aligned properly. The reflector adjuster can now be re-fitted to the motorcycle.
