

19990 KTM 1290 Super Duke R Seat Cowl Instructions

Kit Includes:

1X	Moulding	C19990
2X	Black Torx Bolts	CTRX0001
2X	Black Washers	CWAS0221
2X	3M Velcro Tabs (12mm X 12mm square approx)	C09000

- Remove the original rear seat with the key.
- Use the two black Torx bolts & black washers supplied to loosely mount the cowl at the forward two mounting points. **It is important to mount loosely as to gain access at the rear of the cowl.**
- Clip the 3M velcro tabs together and then remove the backing film. Stick the 3M velcro tabs on the inside of the seat unit as show below. **Use photograph below for guidance.**
- Press the seat cowl down onto the 3M velcro tabs at the rear. **Check alignment of the cowl before pressing down.** Once the cowl is held by the 3M velcro tabs tighten the forward two mounting points.
- Be sure to check fixings periodically.
